FAMILIES AND

### Why help?

- We distribute an average of 25 million pounds of food annually, the equivalent of 20.8 million meals, to more than 40,000 low income families and individuals in greater Los Angeles and its surrounding cities, through our walk-in location in Downtown, Los Angeles, and in collaboration with over 200 partner agencies.
- We promote a healthy eating lifestyle by allotting 60% to 70% of the food delivered, to fresh organic fruits and vegetables.
- We save over 12,500 tons of food from being wasted every year, by redistributing agricultural and food industry surplus.

### Get involved

- Raise funds with your family, friends or co-workers.
- Ask your department, club or organization to help.
- Choose and commit to a fundraising goal. Any amount helps!

### Make a donation

- Make an online donation at [worldharvestfoodbank.org](http://worldharvestfoodbank.org).
- Send a check payable to World Harvest Food Bank.
- Call us at (213) 746-2227 and donate using a debit or credit card.

Your contribution will ensure we're here to help a needy family or hungry person when they most need it.

Please, join and support our cause.
